TEACHING THE WAY THE BRAIN LEARNS

THIS YEAR'S INSTRUCTION:

The Brain and Learning

THE BRAIN AND LEARNING

Throughout the Institute, we will investigate the BrainWeb: Six brain and research components that will help guide you in using effective instructional classroom techniques. We will explore Memory Lanes and specific strategies on how to help students recall and synthesize information. We will also look at strategies in neuro-diversity including Autism, Trauma, and ADHD and investigate poverty and its affects on the brain.

- BRAINWEB: Assurance, Meaning, Collaboration, Differentiation, Emotion, Feedback**
- Memory Lanes**
- Neuro-diversity: ADHD, Trauma, Autism**
- Poverty and the Brain**

Social Emotional Learning Tools

SOCIAL EMOTIONAL LEARNING TOOLS

Social and Emotional Learning Tools represent specific curriculum, strategies, and processes that directly effect student development aligned with self-awareness, social awareness, relationship building, self management, and responsible decision making. Below are the core SEL Tool categories used in the C.L.A.S.S. process.

- Growth Mindset and Nurturing Student Leadership**
- Mindfulness**
- Integration of Life Goals and Lifelines (character and social traits)**
- Developing Behavioral Expectations and Procedures**
- Structures for Disruptive Behavior**
- Effective Classroom Environments: Classroom Design and School-wide Design**

Curriculum Delivery Tools

CURRICULUM DELIVERY TOOLS

The C.L.A.S.S. curriculum delivery tools are extensive in scope and sequence, focusing on specific structures and processes used by administrators, educators, and to some extent, students to deliver social, character, and academic instruction.

- Direct Instruction Strategies to Engage Students**
- Processing Structures for Student Learning**
- Creative and Meaningful Prompts for Student's Delivery of Knowledge and Skills**
- Quick and Effective Strategies to Check for Student Understanding**
- STEM, Literacy, and Mathematics Focus**
- Digital Tools and Technology Integration**

Collaboration Tools

COLLABORATION TOOLS

A critical component of the C.L.A.S.S. process is the use of collaboration to build friendships and inclusion, to develop social and character skills, and process knowledge and skills to take to long-term memory. Below are the core Collaboration Tool categories used in the C.L.A.S.S. process.

- Whole Group Processing Structures**
- Student Team Structures**
- Collaboration Structures: Pairs, Small Groups, Large Group Student Processing Structures**
